'THE LAST FEW CREATIVE MONTHS'

The whole Blood & Honour movement has been transformed over the last 6 months. New organisers, new editor and contributing writers putting out this mag, and a mass of activity behind the scenes.

The seeds have been sown and the B & H movement at present is better than it has been for a long while, Why? - we will tell you.....

Since the new leadership have taken over alot of arguments have ceased (about time too) and some (not all unfortunately) friendships have been renewed, the slander, the scandal, the gossip and ho-hum of the previous editor, who we would like to point out WAS NOT Martin Cross who had his name added to articles he never wrote, all these bad points have been abandoned, the European network of B & H supporters have welcomed this with open arms and welcome white unity.

Links with political groups have been forged again and the wheels are in motion to dismiss and correct former falsities.

The new faces at gigs, alot of youngsters which is what is needed is great to see and as one organiser commented, the amount of Skinhead Girls attending concerts has risen (much to his appreciation). Also 3 new bands in '97 so far with more ready to emerge from the shadows.

The establishment of a new breed of bands who are gaining great reviews from zines, and don't forget, these bands have only gigged, not put out CDs although some have plans, but still the bands will be good catches for any label willing to promote them. Chingford Attack alone have several gig dates planned for Europe including Germany and Spain with Warlord, Avalon and Legion of St. George looking to follow suit. The sheer explosiveness of Conquest is unreal, a band that are destined for great heights, we sure do have a new breed to be proud of.

A gig a month has been achieved, never done before, christ remember the 1980s, you'd be lucky for three gigs a year. There has been no Police interference (except bullying landlords afterwards),

no red unwashed filth demonstrating, reason being tight security on redirection points etc.

New units of B & H forming, notably one in Cornwall where the scene has never been active should be up and running anyday, Cornish comrades are currently being mobilised, also the Scottish branch reestablishing itself although some would not want this, but if you believe in Unity - Why not. Also active units in Yorkshire, Lancs, Derbys, Notts, Lincs, Tyneside, Warks, Staffs, Home Counties and London etc etc, we are everywhere. New units to join our ranks abroad include two new German Divisions, Scandinavian Division, Italian Div., and smaller ones in Poland, Hungary, Serbia, and even Estonia.

So much achieved by so few in such a short time, it proves how hard work can prove so beneficial to one and all, what we can possibly achieve overall is absolutely tremendous, but as we stated the seeds have been sown, lets make these seeds grow and explode into a forest of **WHITE ROCK FANATICISM**.

Until next time.....'88'...

John Davies - Editor.

NORDIC WARRIORS

Nordic Warriors are a new up and coming band from the North East of England, which in Blood & Honour folklore was also stomping ground for the mighty Skullhead. Nordic Warrior represent a new breed of Geordies who believe the best way to get there views expressed is via White Rock.

Influenced by an array of Oi, Punk and Blood & Honour bands like Skrewdriver and of course Skullhead their aim is to awake the youth of the North East again and make them react to this sick society we live in.

Busily practising each week N.W line up consists of Tazo on Bass, Slash on Drums, Rod on Vocals and Two Tone on Guitar. They already have a short but very tight set that covers topics on race, and our struggle for it, Anti - IRA, and their hatred of them and pride in being a Skinhead.

To date the band have played two Blood & Honour gigs being received brilliantly both times and setting tongues wagging of their strong set and sound.

To finish this short summary of N.W we'll leave you with the words of the band...

" We formed because of the shortage of Blood & honour bands since the sad death of Ian Stuart, also the North East has been so quiet for ages, we never seem to hear about anything up here. We aim to take over where Skullhead left off and hope that we can be as popular as them".

To contact N.W please write via B&H.

DJ drum secret

The Sun newspaper recently ran a small article with the same headline as above and it read...

Radio One Breakfast DJ Mark Radcliffe reveals he once drummed for Neo Nazi Rockers Skrewdriver - before they became fascists.

He says "I hope this wouldn't resurface because there will be people who won't believe the explanation. We were just schoolboys and we got a few gigs in the Punk era and a record deal".

Mark adds "There was no fascist or National Front element. It all broke up and I went back to college. Then the guy singer got more into the fascist thing and recruited a whole new line up - but kept the name which is unfortunate".

How the mighty have fallen eh?????

PRIMARY PURPOSE IMMIGRATION RULE ENDS.

One of Britains toughest Immigration rules, which has barred entry to thousands of people married to British partners will be scrapped.

Home Secretary 'Jack Straw' disclosed the ending of The Primary Purpose Rule in a commons reply. It required foreigners married to Britons to prove the primary purpose of the marriage was to not only to enter Britain.

Mr Straw described the rule as "Rarbituary, unfair and ineffective".

Now the flood gates can be let open again, the marriage of convenience is a common tactic amongst immigrants Mr. Straw, but what the heck our state can fund the influx can't it ?

Labour you promised this time round to be the party of Patriots, this stinks somewhat suspect now.

UNITY IN BLOOD & HONOUR ???

Rock against Communism Productions rivals to B&H in GB that includes bands such as Celtic Warrior and English Rose recently planned a 'Aryan Festival' for August 9th in a secret venue which was rumoured to be in Wiltshire. As with all major 'fests' the security and planning of it all has to be crucial. A few weeks prior to the gig, the gig flyer advertising some 10 bands was sent out also detailing redirection points for that day, it apparently appeared on the internet also and hey bang wallop the media/police and Reds know all about it.

Approaching the date of the gig the press had decided for themselves that the gig was really gonna be held in South Wales and had been organised by Billy of Celtic Warrior, firstly he received some bad press and then the Police raided him on the Thursday before the gig arresting him, his girlfriend and two American friends who were due to play at the gig. Billy was charged with Public Order Offences and the three others released with the Yanks being sent home.

This led to the Friday, the day before the gig, the Police had scuppered plans for a couple of the organisers venues and so in a call of desperation Rock Against Communism Prod. approached B&H in there hour of need asking if we could help them out, with a venue, it was thought over and the decision was taken as OK and B&H provided RAC with a venue as a show of Unity, otherwise the foreigners who had travelled a long way would have been badly let down, and comrades from the length and width of GB would've been slightly annoyed.

The gig went ahead, with a small line up of Celtic Warrior without Billy of the band due to his Police problems, a Notts band and Kent band Squadron. No trouble happened and no police problems.

The B&H representative who helped them out received thanks of 90% of all in attendance with many vowing to attend B&H events in the near future, but 10% decided to speak against our movement, now lets not forget, B&H made your gig go ahead, without us there would've been egg on many peoples faces, but a show of Unity and a helping hand was made and it went on. These 10% upset our rep to the extent a fight nearly broke out, and he will not help them again.

If Unity is to be gained these buffoons must be eradicated from our scenes.

The gauntlet for Unity has now been laid down, and its roots stem from Blood & Honour, if this Unity is thrown back in our faces then so be it, but never forget who promoted it.

BLOOD & HONOUR

BLOOD & HONOUR

Whilst just arriving at the latest Blood & Honour Gig on their very own Chieftain Tank, as pictured above and on the front cover of this issue, we thought we'd ask Conquest a few questions, representing one of the new breed bands now active in B&H, the band are committed to fighting for a White Britain...

B&H – Could you tell us about the band, its members, formation etc...?

The band was formed at the same time as the Boyz Own type bands were being formed. The interviewers were looking for good looking, intelligent young chaps as this is what the powers to be thought we needed on the B&H scene. We all had to go through vigorous interviews and physical endurance tests. We all failed, so we decided to form our own band of rejects.

B&H – Have you any members that have been in other bands ?

Mick our singer was in The Human League, Andy our drummer used to play in a punk/oi band and Steve our guitarist used to make music for porno films in Amsterdam, this is where he met Brian our bassist who was starring in one at the time.

B&H – Why the name Conquest ?

Why not ? Actually all the original members have left now so we don't really know but before leaving, the carrot cruncher Rob mentioned something about an ancient tribe of Aryan Warriors in Yarmouth that used to shout "Conquest or die" before their battles, and then fight to the death, but saying that, he was extremely drunk at the time.

B&H – How many gigs have you done and how have they gone ?

We have done about 8 gigs now and we are enjoying them more as we go along. Our third gig was so good to play because the atmosphere was so good it made it a pleasure to perform so thanks to everyone that was there and that has given us support. Also thanks to Stigger for the support, it makes us feel really good that someone with his talent encourages us and makes us, and all the new bands feel at ease when we play the same gigs as him.

B&H - Could you tell us a bit about your songs?

Andy always bangs about on the drums and Steve is always making an awful row on the guitar Brian goes to sleep in the corner and I don't know I am doing or where I am. We do try and have fun with some of our songs so do listen for the changed lyrics.

B&H - Have you any record plans ?

We have been approached by EMI but we are not going to tell anyone about that for the moment. Actually we have been trying to get people in England to help us out with recording but with no luck so far so I think we will look abroad now.

B&H - Whats your view on the new positive approach the new leadership of B&H is taking ?

As we said about our third gig held in Derbyshire/Notts border, the atmosphere was excellent and I would put that down to the organiser and his positive attitude so roll on more events, and if you are reading this and are not going to the gigs because of the atmosphere recently take my word for it if it carries on like this, things will be a lot better for everyone. People are having fun again.

B&H - How is the NS scene in your area ?

Good, the Red SCUM round our area know they will not walk over us and that we will stand up to them as a group so we don't get any bother. I recommend this approach for everyone

B&H - Are any of you in any political party ?

No. Not at the moment there is no leader or organisation that is showing anything special. We have tried supporting the usual parties that turn their back on you as soon as a TV camera gets near so we will have to wait until someone special as the Fuhrer comes along again.

B&H - Mick we have noticed that you have your tongue pierced, what interests you about piercing ?

This is something that if it had came out in the '80s all the skinheads would have got it done, I think it is the British side of us that does these things and makes us different. I will always do things that are out of the ordinary.

Remember the time you turned skinhead ?

I did have a heated conversation with a Black man once who said it was a tribal thing and that I was copying their primitive ways, but I did spell it out quite forcibly that wearing clothes and eating with a knife and fork was our culture and they copied us, no reply from him on that one.

Actually I'm bored with it now, it is a phase people go through I suppose.

B&H - What plans for the coming year ?

We are getting experience of playing gigs and entertaining people and we want to get better at this, and then maybe play abroad somewhere which will be a good experience we hope. Also maybe record a Cd if given the chance, Andy and Steve however are hoping to buy a tandem so they can go on a cycling holiday in the Peak District.

B&H - Are you a nice bunch of chaps ?

'Yes' actually we were saying the other day that we think we are a warm giving kind of people and we should be called 'The Social Workers'.

B&H - Any closing comments ?

If you acquire all the constellations of the universal intergalactic installations and position the ultra incandescent light absorbing indomitable and then recapitulate over a period of time - we will win????

Where are we? What time does the pub open?

No actually lets stop thinking so much about things and go with our hearts, if you stop and think all the time about what is happening you will always find ways of not believing in yourselves and our wonderful race, but this is wrong. Follow your heart and don't keep saying that I will do that one day, DO IT NOW.

I don't mean going out and causing civil unrest but start preparing for the worst. The tides are changing very fast now, did you know that the illuminate are in control of projects in both America and Britain that can mass brainwash a city or town. There are concentration camps being erected in America and under the cover of the U.N the Americans are taking control of most of the world right now. We have to let people know what is going on, not only with the racial problems, but with the one world situation that is rolling ahead crushing everything in its path. All is not lost yet though and they are scared of us and what will happen if people realise what is happening and rebel as nations have done in the past, and will do in the future.

Be a today person. Don't keep putting off until tomorrow because it will never get done and stop trusting everyone. As we have seen from recent events there are a lot of informers about and just because you don't get pulled in every time you do something wrong it does not mean you are safe, it means that they are building up information and are waiting to jump on you when something big goes on or happens.

Best regards to all the true Blood & Honour supporters about today, see you somewhere near your home soon.

For Race & Nation....Conquest.

Blood & Honour Takes a White Look At The General Election 97.

This article was written shortly after the British General Election of '97, although now it is some months later we still feel it has something to say about the way voters in this country tick and how they respond so well and indeed so bad in certain areas, also the Foreign readers of B&H who do make up a large percentage may enjoy a insight of what goes on over here at the ballot....

The scene was set by now Ex-PM John Major for a General Election on May *st 1997. Big news for Nationalist circles was that Britains most active Nationalist Party the 'British National Party (BNP)' would stand 55 candidates throughout the country and hence get a TV broadcast put out on all channels to air their views and party policy. Other Nationalist parties set to contest seats would be the admirable ad historic 'National Front (NF)' which is still in a rebuilding stage after recent factional splits, also Patriotic party 'The National Democrats (NDP)' led by Ex-NF leader Ian Anderson.

All three parties from the day the election date was set completely dedicated their time to forwarding there own Nationalist party and cause to gain power and support.

In our eyes and by the amount of votes cast in the end showed the BNP had done the best job to create votes. The BNP went out on British TV for a political broadcast, the Friday before the Election took place. John Tyndall the BNPs leader led us through a five minute introduction to the parties policies, aims and the BNPs view of a dying nation, Mr. Tyndall did it very well. It was broadcast on BBC 1 & 2, ITV, Channel 5 and Sky Satellite TV with Channel 4 as per usual bowing down to the left and not putting it out, so is the great democracy of the station who each day promote multi culturalism, but the broadcast went out on the BBC at prime time viewing. John Tyndalls good speaking qualities shone through and the pictures of him standing in from of Parliament did amuse my friends and I who had sat down to watch it, he covered the immigration policy, the BNPs Anti-Terrorist stance, its Pro-Death Penalty policy and putting it generally the campaign for 'Rights for Whites' in Britain today, to cap it all off the BNPs address was emblazoned across our screens, well done BNP.

Elections always attract the left wing agitators and this election proved to be no different. The BNP launched its manifesto amid scenes of unwashed rabble of the Anti Nazi League (ANALS) screaming and shouting. The BNPs TV broadcast prompted demonstrations at BBC and ITV regional studios across the nation, and they have the cheek to claim thesae parties are anti-democratic, but White determination powers on.

May 1st soon came along and the voting was under way, the early hours of May 2nd starting shelving out the results from across the nation. Sadly no seats had been won by any of the British right of the BNP, NF or NDP but votes were up.

The BNPs highlights were in...

Bethnal Green & bow - D. King - 3350 Votes, Poplar & Canning Town - BNP leader J. Tyndall - 2849 votes, in Dewsbury, Yorkshire, Ms Frances Taylor gained 2232 Votes and over a thousand votes gained by the BNP in three other seats, there votes over Britain did differ but with anything ranging from 200-800 with the higher votes coming from areas where the white folk are fast becoming a minority like London, Dewsbury etc. So at first glance 600, 1000 or 2000 actually shows that a hellava lot of Patriots support the BNP.

The NF made steady progress with their best result coming in from George Cartwright standing in Dudley North who gained 559 Votes against direct opposition from the National Democrats who polled 569 votes, which is interesting as the Party were under the same banner until last year when the National Democrats split off. So the NF will be pleased with this, NF leader John McAuley stood in Beckenham and polled 388 Votes. The NF have a very well known name, support them.

Lastly the Nation Democrats gained a huge vote - the highest of all the three parties by gaining 4181 votes in West Bromwich West but it must be understood only three candidates stood but still a good result for this new party. NDP leader Ian Anderson stood in Londonderry East, Ulster and polled a poor 81 votes finishing last. Elsewhere the party gained mediocre results in the 200-300 region which may prove in the long run that the ditching of the NFs well known name and claiming to be 'respectable' may have backfired on them, but time will tell.

All in 48,668 votes were polled by the right,

which in total involved 82 candidates out of the whole 647 seats up for grabs. So only a small portion were contested and so only a small percentage of white folk were able to vote for the right, overall the parties did well in our eyes and shows if a new government introduced proportional representation the right would gain seats.

Also it is shown over the years that during any Labour government that the right-wing rises as Labour promote the multi cultural thing, oh sorry Harmony to the hilt, Remember the NF in the '70s.

Not everyone including many National Socialists and Third Positionists believe in the voting through the ballot box as it is thought a waste of time as even if the whole Nation would've voted BNP, NF whatever, ZOG would lie about figures and declare someone else with there own interests the victor, and revolution being the only answer. But many do vote and do believe in it, a lot of dedication, hard work and trouble on the streets was endured by all Nationalists who canvassed during this election, and so all candidates and canvassers need patting on the back.

Final Conflict the well established revolutionary zine has released a book entitled 'Fascism in England 1928-40' the first in a series of books examining the roots of Fascism in this land.

Includes news on Leese and the IFL and Mosley's BUF.

A very detailed and interesting booklet.

STOP PRESS....STOP PRESS...STOP PRESS...STOP PRESS..

HESS RALLY UPDATE.

Just as we go to press it has been the weekend marking the death of Hitler's Deputy 'Rudolf Hess'. On 17th August 1987 he allegedly committed suicide, hence making this the 10th anniversary of his death.

German comrades had put the call out to rally and march in every German city and town in memory of this fine man.

Police arrested over 200 comrades on the day as part of a major crackdown on the marches, but they didn't stop German determination.

The annual Hess Rally was again this year held in Denmark where 200+ comrades marched and aired their views, on hand to help them was over 800 Riot Police, no doubt to protect the Red rabble who had organised a counter demonstration.

German comrades cleverly played cat and mouse with the Police keeping all details of demonstrations secret as Hess Rallies are now banned under German law. R.I.P Rudolf Hess.

BH INTERVIEWS N.S LOYALISTS REICH FORCE.

B+H :- When and why was Reich Force formed?

R.F :- Reich Force was formed in 1995, out of dedicated N.S members, at a great expense to themselves, who saw an opening for a band like Reich Force on the gig seen, giving people the taste of what it was like in the 1930's Germany when there weren't any N.S rock bands. We must not forget our musical past.

B+H :-Have you played any gigs?

R.F :- Reich Force was up and running in 1996, and played there first gig in Harlow, with a good reception, and lots of offers off people with help with the band. The audience looked stunned when we marched on stage in full uniform to the sound of clinking camera's everywhere,

Our next gig was our leaders birthday celebration on Ponders End. After a lot of photo sessions Reich Force played, to a good welcoming crowd, a good evening had by all.

B+H :- Have you played at other venues?

R.F :- Yes, we have played at a few private functions, and we've also been asked to play at weddings.

B+H :- You have not played any gigs recently?

R.F :- We put our political N.S campaign and work first, before our band, but we hope to play gigs in the near future.

B+H :- Have you been asked to play aboard?

R.F :- Yes, from 4 different countries, and lead a march in one of them, through lack of money we could not lead these demands.

B+H :- Have you and merchandise?

R.F :- We have produced a good quality poster of R.F and there flag bearers, in Black and White, with good N.S art work all around. As pictured above available for £2,90 Inc. p+p with cheques payable to 'OUTDOOR ACTIVITY CLUB'

P.O BOX 216 CROYDON.

CR9 - 22N. U.K.

B+H :- Are you hoping to put your music on CD ?

R.F :- Yes, we are hoping for a joint C.D with another band, we have written many N.S songs, and hope to produce something in the near future.

B+H :- Have you anything else to say?

R.F :- Yes, we would like to thank all the people who stood by us, in times good and bad.

Hail Victory, Hail the 4th Reich.

RECORD REVIEWS

BY B.Kilcline -Ulster.

NAHKAMPF - 'Lieder die helfen sollen, das werk zu vollenden' - ISD Records, BBC BOX 303, Vesterbrogade 208, 1800 Frederiksberg C, Denmark.

A debut CD from Nahkampf on the mighty British label ISD, please note it's new contact address as above.

Nahkampf gave us a taste of what they were like on the second Blood & Honour compilation CD and this CD is by far no let down.

Very catchy Oi/Rick, not your average normal German stuff, as sometimes German bands sound so familiar but this CD really gets your feet stomping along.

10 tracks that include tracks like 'Legion Conder' 'Horst Wessel Lied' '17.8.87 (R.Hess)' 'Europe our Fatherland' and 'Comrades'. A great addition to my growing collection, well done ISD.....9/10.

MAX RESIST - 'Second Skin' - Nordland Records - CD can be bought from Max Resist, PO BOX 81371, Rochester, MI 48308, USA for £12 inc P&P.

The second CD from Max Resist, one of the foremost white power bands from the states. Definitely no letdown.

10 tracks in all, very Oi sounding with the distinctive vocals of Shawn the bands singer, very NS, tracks to watch out for are 'Living in America' 'Whiteman' 'Maximum Resistance' and 'White Power Rick N Roll'.

Inside the CD is a fitting tribute to former Max Resist member Wes Branson, a true Aryan activist who sadly died in a car crash.

U S of A white power Oi at it's best.....9.5/10.

AGGRAVATED ASSAULT - 'Out on bail' - Tre State Terror Records. PO BOX 928, Stroudsburg, PA 18360, USA (£ 12 inc P&P)

The second CD from the masters of hate - shock rock, the AC Boys themselves 'Aggravated Assault'.

A vast improvement on their debut CD and much faster in style. The CD covers the antics of the AC Boys crew, their love for beer, violence, white race, and 'THE' final solution.

A great layout also from the Tri State Terror CD firm who I'd class as No. 1 in the states now.

13 rip roaring tracks that include an hilarious track about an immigrant friend of theirs 'Sammy Jackson' and other tracks 'Shotguns and whiskey' 'natural born killer' 'Filthy whore (white slag)' 'Mud control' and 'Hammer Joe'.

What more could you ask for ...buy it.....9/10.

KAI FREIKORPS - 'Nordmann' - Rock O Rama Records.

A new CD from one of Germany's favourite exports to the world other than frankfurters.

A melodic CD with some very catchy Oi riffs mixed with strong vocals of Kai.

11 tracks in all, all in German but don't let this put you off, I still really enjoy it's sheer energy.

Tracks include 'Nordmann', 'Sharp', 'German', 'Gift Gas', and 'Siegel weiter'....a collectors piece.....8.5/10.

PIG KILLER - 'the spirit of 1939' - Ainaskin Music.

The debut from this up and coming new Finnish band featured in No.9 of Blood & Honour. Very catchy Oi /Rock and the topics cover all that matters to a concerned white person.

12 tracks in all, 11 in English, the other in Finnish which incidentally is probably the beat track on the CD, but others to watch out for are 'bang you're dead' 'Ni**er Lover' 'heroes' and 'The Eagle Flies Above'. Great layout and quality song booklet.....get it now.....9/10.

CELTIC WARRIOR - 'The legend Lives on' - Independent Voice Records.

The new CD from the quality Welsh outfit. Another new line up. Well laid out complete with loads of photos and lyrics.

11 tracks in all that include 'The Welsh Nations Anthem' 'Blood Ties' 'Zero Option' 'The Legend Lives On' and 'Goddess of War', it would take a lot to beat Celtic Warriors debut CD and sadly this doesn't but still well worth adding to your collection.....8/10.

WHITE RESISTANCE Vol.1&2 - Compilations - Label Unknown.

Two CDs that have come to our attention that carry the record label as 'C18'. These are not C18 produced CDs at all and shouldn't be considered as such.

The CDs are compilations featuring tracks already released by bands such as Grade One, Violent Storm, White Noise, Lionheart, Dirlewanger, Battlezone, Peggior Amico and more. Mostly copied from singles off rebelles Europeans Label or comp CDs such as B&H Vol. 1&2. An addition to your collection and they do contain some classic tracks but if you already have them then don't bother as it seems to be another money making scam.....8/10.

INTIMIDATION ONE - 'Call to Warriors' - Frontline Records. PO BOX 33160, Portland, OR 97292, USA.

A great debut CD from a band that really have the movement at it's heart, the band are heavily involved within a group called the 'Volksfront' who do a hellavalot for the NS POWs. Their CD echoes this positive action.

18 tracks of fast Oi music, straight to the point lyrics without being silly and tracks include 'White NS Skinheads' 'Bagels and blood' 'Aryan Girl' 'Gang Riot' and 'Boot Party' but it for a fast ride of Oi at it's best.....9/10.

WOLF - 'Kai Freikorps and Ken McLellan' - AEI Music.

A good double act of musicians presented by this new Czech label. 11 tracks in all that include rock/ Oi classics such as 'Look after No.1' '8 Nordland' 'Was bist du' 'Eternal Flame' and 'Walhalla Ruft'....Kai and Ken work well.....7/10

TRI STATE TERROR Volume 2 - Compilation - TRI State Terror Records.

The second comp from the mighty TST label, address as shown in the Aggravated Assault review. 16 tracks from 8 different bands that include Steelcap, Attack, Blue Eyed Devils, Infantry, No Alibi, Agg. Assault, Mudoven and Pure Rampage.

Some hardcore, Oi, Rock and metal featured on this CD

Blood & Honour recently had the great honour of interviewing the foremost Canadian White Power personality namely Griffin of White Power band 'ARYAN'.

Could you tell us the current line up of Aryan ?

Our current line up is Rouge on Bass, Mike on Drums, Eric on leads and Myself on Rhythm & Vocals.

How many gigs have you played and which do you rate as the best / worst ?

With our current line up about 5 shows, as far as good and bad, any show that goes ahead is a good show, as far as bad, we've had bad luck here and there - F*ck 'Em.

You have played Germany, how did you view the scene considering any runes, right arm salutes and basically being white and proud is illegal ?

Germany was a great success, but as far as the laws go, I was unimpressed, to say the least. We made some good friends there some of which I shall never forget, we will return again.

You have a new CD out on Resistance called 'Where Iron Eagles Fly', could you tell us your feelings on this release ?

Yes the new CD is out and has been for a couple of months. It began as a project on my own but added musicians as it went along and this CD is the result, we worked with some very talented people and we hope you all enjoy it.

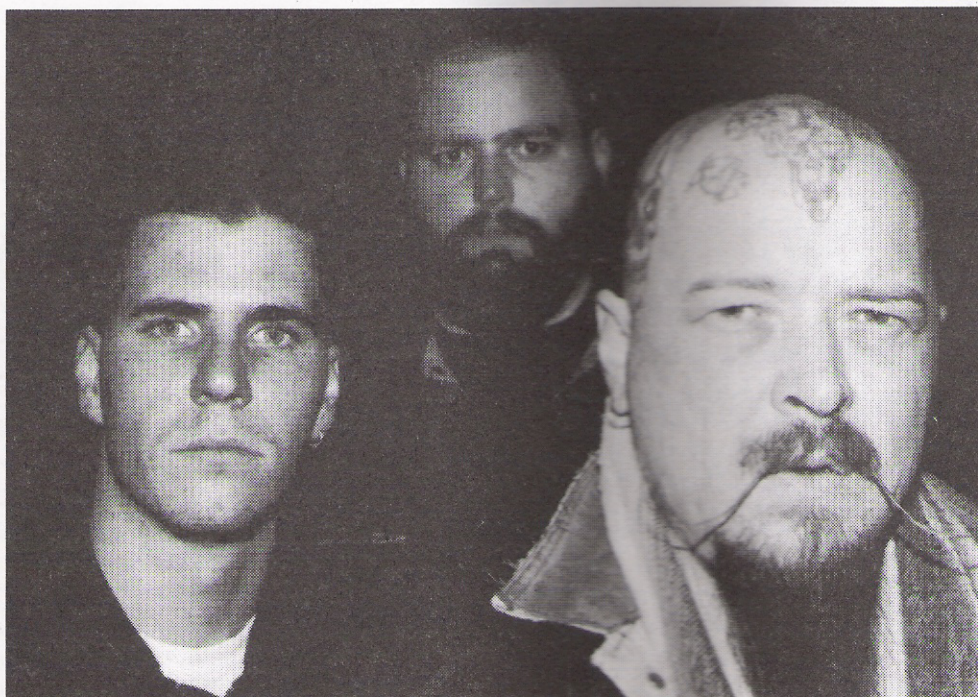

It was said Griffin that you would do a CD production for Britains 'ISD Records', how come this never came about ?

We were going to release on ISD and I still plan to work with them in the future, but with all the friction that is being tossed about, I thought we should stay the hell out of it, I'm glad things are coming around - REAL GLAD.

Griffin, you have done artwork on many CDs, which design would you consider your favourite ?

Of all covers I've done I'd have to say my favourites are The People Haters second CD and of

ARYAN

course the Skrewdriver Best Of...Vol.2 on ISD which was an extreme honour.

Blood & Honour have been at loggerheads with several factions over the last two years, it has cleared its decks and positiveness has prevailed, do you welcome Unity and what's your view of all the rows?

Unity would be the Cats Ass, wouldn't it ??? I mean we could accomplish so much, I know it's coming and I can't wait. It's what is needed.

In Canada what political groups are worthy of support and which is the largest ?

National Socialist activity is very low key here, our laws are very near as bad as in Germany, but not quite as bad, but certainly getting there. We have lots of different Skinhead groups like the Hammerskins for instance in most major cities across Canada, who promote and support our scene.

It seems everyone is regrouping and thinking things over especially after the Canadian Secret Service infiltrated our movement which has slowed things up but it'll pick up.

The largest political party catering for the right would have to be 'The Heritage Front'.

Above Griffin in Action.

Is Ernest Zundel the famous historical revisionist in Canada who has suffered from Zion and its Red puppets still getting hassle ?

Mr.Zundel I'm sure will still be getting problems from smelly old ZOG for a long time to come, or at least until this zionist creature is destroyed once and for all. KEEP UP THE GOOD WORK Mr.ZUNDEL.

Away from the band we are told you tattoo ? Tell us more....

Well away from the band we of course all have jobs, they are a good bunch of lads and hard workers too. Yes, I tattoo alot and have been doing so for almost 17 years now, I make no apologies for what or who I am, if your white and want some good artwork doing, no problem, if not - piss off.

Whats the plans for the coming year ?

Over the next year we'd like to play as many shows as we can get away with, without the Police interfering each time. I'm also working on new material already, its going good as the songs in my view get better each time I write a new one, as this is being written I am heading to Buffalo to play the Birthday Bash '97 in Honour of our beloved 'A.H', so far its not going well, the commies have the whole city going nuts, media, cops, and scum of all forms which is typical of the USA hyped up reaction.

To the Blood & Honour readers have you any closing comments or remarks to make ?

I hope that one day we can make it across to England, we would love to play in Great Britain and would be very honoured.

I hope that everything goes well for you in Britain and all the indifferences get ironed out. Hail you, hail Blood & Honour (I've still got my first issue, in excellent shape which is personally very valuable to me)....Racially Yours....

BLOOD & HONOUR NEWS

British bands and the British scene has been as busy as ever, a gig has happened every month without failure up and down our fair isle. Some real new gems are shining through this dirt we all live in.

The new Geordie band 'Nordic Warriors' are living proof new recruits can be brought into the movement, new to our scene, they really do have our whole hearted support, we have high expectations for them.

The new Avalon CD 'Our honour is true' due out by the time this is on the streets even after Police interference in Germany with the lyrics being checked, this CD shows the band as well rehearsed, thought provoking and exciting. It is out now and available from Di-Al Records or from Strength & Will zine.

Legion of St. George continue to gain an explosive following with their catchy Oi set, true sons of England. The band we are told don't plan a CD yet as they wish to get known throughout Europe first by doing gigs over there and as B&H goes to print they have a couple of German dates lined up.

Chingford Attack have continued to shock Europe with their point blank approach and should also be entering the studios in October, they recently played in Denmark even though the Police and Reds tried everything possible to stop it, it went ahead in a small Danish valley and was held Open Air, alongside Swedens 'Totenkopf', Chingford also have gig plans for Germany, Italy and Spain over the next coming months.

With No Remorse due to be back shortly after a short break from the scene, new boys Violent, Wolfslair, Outburst (Another new band from Yarmouth) Close Combat (another new band from Oxford) and gig regulars Conquest (get to see them, you won't regret it) and Warlord who incidentally plan a new CD in the new year, the whole scene band wise looks good, the best its been for a longtime, but don't forget gig goers, these new bands are dedicating alot of time and money learning the ropes so to speak, so when they play gigs, support them by cheering along etc, that encouragement really inspires.

Long running t-shirt merchandising outlet 'R.I.D' has ceased trading from its Bridlington address due to many reasons, but fret not, it has been taken over by 'Angriff UK' at BCM BOX 6826, London, WC1N3XX who have a new catalogue out now, and if your lucky you will catch the sale they are currently having on Skrewdriver shirts

Stigger of Warlord in action.

to clear old stock and replace with some new exciting designs, they also stock Avalon t-shirts and many other goods for your enjoyment, send a SAE to them now for a list.

ISD Records have set up a PO BOX in Denmark to avoid this countries strict laws, see separate article on that.

Lets have a look at other news from the global scene.....

In the USA 'Tri State Terror Records' (TST) have been busy releasing a compilation CD entitled 'T-S-T Volume 2' featuring many bands, see record review, also TST have released 'Aggravated Assaults' long awaited second CD 'Out on bail' which is a vast improvement on their debut much faster, more

rock influenced, also TST have released '7 singles by Mudoven and The Blue Eyed Devils. TST also plan a 4 band compilation on a '7 single featuring amongst others Aggravated Assault, Mudoven and new band 'Hate Crimes', it will be limited to 500 copies so get your advanced orders in. TST have also offered Las Vegas NS death metallers featured in No.9 of B&H 'Stronghold' an offer and a CD is in the pipeline.

Battleaxe who featured on the Resistance Records Ian Stuart Tribute' CD have a full length CD available called 'Self Defence' on Warlord Recs PO BOX 3361, Chatsworth, CA 91313, USA.

A new Centurion CD is also complete and should be out by the time we go to press, released on a new label, the band are sadly only a studio outfit now.

Midtown Bootboys second and very long awaited CD is now released and out on Stormfront Records and called 'Unfinished Business', unfortunately the release has yet again brought a shadow over the White NS music scene. It seems Stormfront who released it owed alot of people a lot of money and have done a runner with Money and Cds, there internet site and PO BOX both now shut down. We are informed Resistance Records has the CD but Resistance are experiencing Police problems after a raid on unpaid TAX so whether or not they are trading fully is questionable. Some folk who were ripped off by Stormfront however have rallied together and will surely be bootlegging the CD to get some of there money back by selling the CD themselves, B&H has a tape of the CD and it is no let down and compares highly with there debut CD 'The time has come', when you have the chance to get it - do.

Odins Law - Canadas Thrash band have a CD out on Viking Sounds Records and is called 'Battle Legions of Wotan', very heavy but well recorded and incidentally mixed by Ed of Bound For Glory, it has gained promising reviews from other magazines.

In Poland there has been a hive of activity, its Blood & Honour divisions really seem to be getting there acts together. Poland B&H have their own zine available even after several raids by ZOG took place against our activists which resulted with both fines and Prison sentences being handed out. Polands No.1 band 'Konkwista 88' have finished recording their next CD to be released on their own label 'Hard Records', they recently gigged in Switzerland with Spanish comrades 'Estripe Imperial' and some newer German bands.

Nowy Lad or New Order featured in B&H 9 have released a great new tape entitled 'Racial Purity' showing the band have great potential for the future, the tape includes new and old material, they have also gigged in Germany (Chemnitz)

supported by a German band from Potsdam.

Regiment 88 a radical Southern Poland band are back together and gigging after the band were sent to prison after the band smashed some reds, a new recording will come from them in the near future.

Storms Kenneth in live action.

In Scandinavia - Swedens Storm have informed us that their new CD 'Is it too late (to save our race)' still hasn't been released but should hopefully be out shortly, they have since wrote their third CD called 'European Guards' and is rumoured to be released on Denmarks 'NS Records'.

Another Swedish band 'Terror Machine' will record a demo soon with a view to releasing it, titles will include 'Kill em all', a ballad called 'Adolf Hitler', 'A bullet that wears your name' amongst others, keep an eye out for this band, they have alot of promise.

Gothenburgs favourite sons and No.1 band 'Totenkopf' have recorded their second CD entitled 'Our Symbol is death' due for release on NS Records soon and should prove as popular as their debut.

Lastly more new blood to the B&H scene, this time from former Soviet State 'Estonia', apparently the scene is very strong there and a B&H unit is set up and gigs happening regular - top band over their are called 'P.V.A', more news of this division next issue.

Until then keep your band and division news coming in, without it your good work will not get recognised, write now....88

BLOOD AND HONOUR MAIL BOX.

Greetings John and B&H Firm,

Cheers for the recent bulk order of B&H which I was really proud to receive, when over the past year, maybe two the only progress made was by our enemies, the new edition of Blood & Honour was a true light in all this darkness.

A lot of comrades have really dropped out since 'certain people' ran B&H etc. but with your new positive moves they have resurfaced and want to be part of a progressive movement.

I enclose our order for 50 copied of No.. 10.

Best RegardsAlan and Cornwall B&H.

(Ed replies..... Alan your letter is like many we have received and we applaud your support for our new direction towards unity and camaraderie, Cheers. Look out for more details of B&H Cornwall which is in the process of being formed)

Blood & Honour,

Many thanks for the recent copy of B&H which I enjoyed and it proves although what many say, B&H is alive and kicking.

I had written to the BM BOX 5608 on three occasions each time sending money but never received a reply but my cheques were always cashed, great to see your honesty in honouring subscriptions and debts that Sargent and Co. left you to clean up.

Look forward to No. 10...88...Paul/Northants.

(Ed replies.... Cheers Paul for your letter and support, we can't comment on the mail to the old, now defunct address as it as you know wasn't our concern, but please to all readers. avoid the old address like the plague)

Comrade John,

Thanks for the new mag, great to see something sleeze free for a change, also I hear the gigs are going on regular and really well, could you tell us when the next one is so we can arrange a mini bus, also could you send 10 more B&H, some friends of ours in Munich want them and they also want to set up an official B&H unit.

For Race and NationC.. Streatham.

Dear John,

Thanks for the B&H, we did send you a copy of Final Conflict but it seems it went astray so heres another, the new issue should be out soon and also our new booklet 'Fascism in England 1928-1940', if you can do a review we'll send a copy.

We do appreciate the friendly overtones within B&H as well as your letter, however we will 'hold back' until we are sure of everything, after all many folk have been offended by lies (being called Communists and Jews for instance) things that as of yet haven't been redressed. Others have been attacked physically or have property attacked, again no apologies forthcoming.

So, whilst we hope for the best do excuse us if we say 'thank you ...but'. Should circumstances become clearer we'll be only too happy to mend past bad feelings and misgivings etc.

We do hope you understand our position,

Yours faithfullyFinal Conflict Zine.

(Ed repliesMany thanks to Final Conflict Zine who are part of the third positionist movement to write a truly honest letter. Firstly I haven't seen any Third Position members for a few years, the last time in Mansfield for what I think was a white Christmas concert, Ian Stuart specifically invited them there, he nor anyone at the time had any problem with the FC Mag or TP but it seems the people no longer associated with B&H did. We openly say this : B&H is the Independent Voice of White Rick Music and although most of our supporters are NS we do welcome Nationalists, Patriots, Third Positionists into our gigs and hope to see you all in the future, this already happens in countries like Spain and Italy so why not here?

Ian Stuart had personal problems with Derek Holland and Patrick Harrington but now is old news, to create unity is our objective and this we shall, to buy Final Conflict send £2 Inc. P&P from BCM BOX 6358 ,

London,

WC1N - 3XX..mention B&H when ordering.

Dear Editor

Blood and Honour unity, Fact or Fiction, Fraction or Friction.

Rather than drone on with my personal views of what has gone before and what we should do to mend broken fences, stiles and build bridges read this quote:-

"As one we're f--king strong Fighting against each other we're f--king weak and we're giving the Jews a laugh"

People Haters Interview.

"Shock rocks leaders The People Haters detail their master plan"

Q. Why the name People Haters?

A. Generally all people suck, wouldn't you agree?

Q. You played London in January which proved a popular show, what's your thoughts of it and will you be coming back?

A. The gig was great, luckily there was no police intervention even though they were really for trouble. Unfortunately the rest of the band could not make it but I thought Will and the boys did a great job. Our new band "Hatemonster" might be coming back in the near future.

Q. How have your 2 CD's been received by the NS music fans?

A. It was a great reaction, bigger than we thought it would be. We didn't think so many people could find the hilarious side of racism.

Q. We hear Hatemonster will be in a similar vein to the People Haters, is this true, So it'll be politically correct yes?

A. The reason we did only 2 PH Album is we didn't want to burn out like so many bands seem to do. Hatemonster will be a more nationalistic band, rather on the serious side.

Q. When do you hope to record next and will it be for ISD ?

A. Right now we're ready to record 8 songs, if ISD puts up the money first, it's theirs.

Q. In the states how is the NS scene and which NS groups/parties do you support?

A. We support any productive nationalist groups, but unfortunately there are some groups that are very counter productive which we don't support.

Q. Is it true most Klan units have really dwindled in numbers, but which are still strong and worthy of support?

A. Skip question.

Q. What's the Hatemonster view of Clinton and his ZOG allies?

A. Nuclear weapons is what we need destroy this society set us free. (Quote from "No choice" -2nd album)

Q. Your song Charles Manson Eyes, do you believe in him and his goals?

A. We did this song cause we wanted to have one song, that would basically offend everyone. Just like S&M man on the 2nd album.

Q. Is it true you met Ian Stuart on a few occasions and how do you view him?

A. Yes, it is true, the first time I met him was in Munich & I was wondering if he would have a "rockstar-attitude" but as we all know, Ian was one of the boys & a lot of fun to be around. R.I.P Ian, we miss you!

Q. What's your view on the new positive B+H GB magazine?

A. I think it's great to have a more positive attitude & look towards the future instead of dwelling on the past. I hope this will be a turning point in the B+H scene around the world. Only together will we ever accomplish our goals.

Q. What plans for the next year?

A. I have more band projects waiting in the wings, after the Hatemonster Album we will concentrate on those projects.

Q. Any closing comments?

A. Thankyou to B&H England for all your help and support. We will never surrender.

FREIKORPS

This interview with one of Germany's top bands was conducted during a bad time for the band, Klapmeier the band's bassist was stabbed by communists during a streetfight, and spent time in a coma in a hospital's intensive care unit. Klapmeier has since recovered and we send him our best regards, Freikorps march on. Needless to say the communists were not charged by Police for the attack...lets see what Freikorps have to say for themselves...

B&H - Could you tell us about the formation of Freikorps ?

The band originally formed under the name 'united blood' in 1988, we changed the name in 1990 to Freikorps. The current line up is Klapmeier - Bass, Piwi - Drums and Kai Vocals & Guitar. We chose this name for our band because Freikorps divisions always fought against the communists inside and outside of Germany, the name also reflects strength to our enemies, as we will never forget about what our forefathers fought for.

B&H - Could you give us a Discography of the band ?

We have three full length CDs out now - 'Land Meiner Vater', 'Immer und weg' and 'Wie die Wikinger', also Svea Music brought out a split CD with us and Storm featuring. I also perform under the solo name of Kai Freikorps and have brought out one CD entitled 'Nordmann' and one mini CD on German label Excalibur called 'Abschied', our first CD 'Land Meiner Vater' appeared in 1991.

B&H - From these releases have you experienced problems from ZOG ?

Our first record was banned by the German 'Justice' because of Racial Hatred. Also we had a lot of problems from the Police after some gigs in 1995, I was fined a lot of money, we may tame our lyrics but we are never safe from the law as they continually monitor us and raids have become common practice.

B&H - From these releases which is your favourite ?

The 'Immer Und Weg' is by far the best Freikorps CD, I think it has the best lyrics and melodies and it gave us our breakthrough into the RAC scene in Germany.

B&H - What about gigs, has there been many ?

About 20-30 over the years and several gigs where I only played ballads. The best have been in Brandenburg in 1995 (because it was a big party and no fights between comrades, although we had problems after it), also Bremen 1992 and the ones abroad in Turku - Finland and Detroit-USA. The worst would have to be in a little pub in Germany, only a small gig where I was due to play ballads, about 50 attended, only a few minutes of music played and it became a mass brawl.

B&H - The USA gig you mention, how did this compare to German gigs ?

The concerts are much smaller and everyone knows each other. In Germany there are so many concerts that now they aren't special to attend, that's different in the states. Some fans drive 10-15 hours only to visit a show. But anyway we met a lot of good friends and played with some excellent bands.

B&H - Kai you have also played in off-shoot bands like 'Hooligan Beat' 'Asgard' and 'Rock G Socks', tell us more ?

Currently I only play in another band and that is my second band 'Holsteiner Jungs', it is true I also played for RGS but only Guitar, not song writing, it was more helping friends in the studio and Asgard finished along time ago.

B&H - How come the 'Hooligan Beat' CD is sang in English ?

I only wanted to show my support to the movement outside of Germany - nothing more.

B&H - Could you tell us which German political parties you support, also is it true that F.A.P are banned and are running it in exile from a neighbouring country ?

The FAP is banned in Germany but we don't know what is going on with the party now, one of our members was also a FAP member but now he supports the Hammerskin Nation. Freikorps as a band support no one party but all organisations who fight for the white race.

B&H - In which part of Germany is Nationalism the strongest ?

Maybe in Bavaria, but I don't know. In Schleswig/Holstein nationalism means nothing to the folk as they support left wingers.

B&H - It is said that there are over 100 skinhead bands in Germany, which are your favourites ?

There are too many bands, when we started there were only 10-15 bands in the whole of Germany, but now every week new CDs are appearing on the market from bands you have never heard of.

B&H - In Europe the bands stay more Oi sounding rather than the USA metal stuff, like Freikorps Oi sound, why do you think this is ?

You know skinhead music is Oi based and we are proud of this, why should we play metal music? If someone is white power and he plays black metal its OK but in fact it's isn't Skinhead music. We all like fast Yank bands like 'The Blue Eyed Devils' but that music is not our style, we are skinhead and don't want to steal the music from the longhairs.

but on the other hand American Skinheads grew with bands like the Cro Mags and Agnostic Front so maybe it is more natural for them to play the hardcore style.

B&H - Have Freikorps got a merchandise outlet and what is available ?

No we don't sell CDs and t-shirts any longer our PO BOX is for correspondence and for contacting for gigs etc..write to FK, PO BOX 1138, 23811 Reinfeld, Germany.

B&H - Away from the band what hobbies have you got?

Obviously to spend time with our families and friends, even though we are getting old our hobbies are much the same - drinking, music, zines and sometimes we go out to break some bones.

B&H - Where will Freikorps be in 5 years ?

I hope....no, I know, that Freikorps will still be around as a true skinhead band.

B&H - Any closing comments ?

Thanks to Blood & Honour for the interview and support, keep on rocking the reds - 88.

Instill Love Not Hatred Into Our Children

When our children of our proud Aryan families have to go to multicultural schools it is totally saddening, and disheartening, very sad and also fervent anger at having to bow down to this countries betrayal of us all, but our kids need educating and so this sacrifice has to be made.

Why should these white youth be made feel guilty of loving their own race ? They have grown up and taught to be proud of their own.

Schools up and down our country now have lessons in Erdu compared to the languages of Europe like French, German or Italian, WHY ? The answer being the present government and the ones before these socialist buffoons always kneel before these immigrants councils and committees begging for their votes, priceless to these politicians and they eat there curry, wear their ceremonial robes and put on the loving politicians hat.

Our children need the truth told to them in schools, we need a restoration of History telling of heroic Britons of the past and present, we need the truth, the victories, the courage, not shady dealings and apologies for a certain goyim religion which in years gone by were nearly extinguished out of Europe, and we are not talking the 1940s but centuries - 15th, 16th, 17th and so on.

But the more our children are fed these symptoms of modern day demise, the more 'we' as parents resent it and instil in our children pride, honour, family well being, the list is endless, the parental body has, is and always will be the most influential part of any childrens growing up.

I've witnessed as a organiser for the NF/BNP over the years, young teenagers from all back rounds flocking to the nationalist way of life, way of thinking, these youth have been at the blunt end of zionist education and rebelled, the more who rebel, the more the system fails, the more it fails, in the end will collapse and truth will prevail.

So in our needy, darkest hours we must as NS thinking folk, as NS parents make time for our children, but don't instil hatred for the foe, instil pride of ones self being, ones history, our future. For the more we teach, the more our children will understand our roots and ancestry.

Keep on fighting the system, defy them and promote our culture, NOT THEIRS. For my love of this nation ...BJ-Hants B&H...88.

THE ONLY ROCK THAT REALLY COUNTS

Mudoven

IS THE ONE THAT FLIES FROM THE HAND

A new and exciting band to appear over the last year or so are Americas' 'Mudoven' who play a thrash style music with very radical National Socialist opinions. They have a single out and appear on a compilation CD with some catchy tracks and B&H wanted to find out more, we wrote to the band.....

When did the band form and why such a name ?

Mudoven started out in mid to late 1995. For those who don't already know, Mudoven is a spin off of the longtime racist thrash band 'Vaginal Jesus' which has since split up. The name 'Mudoven' was chosen for a name because it suits our sound and attitude.

The band play a thrash style, is this your music and do you like W.P rock etc ?

Our sound is an extension of our views - harsh, fast, aggressive. We grew up on thrash metal and hardcore punk, so its only natural that we are a result of our influences: Musical, ideological and otherwise. But traditional W.P music also gets our blood pumping - particularly Razors Edge, Freikorps, Skrewdriver and other standards.

Could you tell us about your releases on Tri State Terror Records ?

Our demo tape 'Hate' was sent to T-S-T in late '96. The label enjoyed the aggression of the music and offered to release it as a single, but it was too long to release on "7 Vinyl. So one long song was removed and replaced by two short ones and the result is our debut single entitled 'Aryan Vs Alien'. The single is selling very well so far, and thats without any ads or reviews printed yet. The Tri State Terror Vol.2 Comp CD has one song from the single aswell as a cover of a Cro Mags song. The comp also features Aggravated Assault, Blue Eyed Devils, No Alibi and several others.

Your views on Zion are reflected heavily in your songs, do you rate him as a worse enemy than a Asian or Black ?

Thats an excellant question and the answer is YES. For one thing, Jews assimilate into our culture more easily because they are harder to visibly identify. When encountering a black, there is no question that is an enemy. However many businesses(chiefly Jews, of course) employ individuals who look White but are actually Jews, this way they fool you into giving them your patronage. If you knew they were Jews, you would surely boycott them. Another reason why Jews are a far greater enemy than any others is because of the grip they have on the so called upper echelon of society : big business, high finance, local and national politics, the list goes on. Jews have a large hand in nearly all factors which rule and define modern society. From interest rates to hate crime laws, there are Jews involved in the decision making process concerning 'the rules'. The same cannot be said for blacks. As destructive as blacks are, they don't run the multinational corporations which destroy the environment etc.

Are you active in any political group and which NS parties do you support ?

Unfortunately it would be unwise for us to divulge which political groups we are active in for obvious reasons. Although they aren't an actual NS group per se, we have always appreciated Tom Metzger/WARS high profile propaganda. He is definately the most vocal of all American Racists. We also greatly admire the reporting of National Socialist Vanguard.

Which U.S bands have supported you as a band and who do you like ?

Blue Eyed Devils and Ethnic Cleansing have both expressed a liking to Mudoven, as have the rest of Vaginal Jesus. In my personal opinion, Blue Eyed Devils are the most ass-kicking band in America right now, and I also enjoy the rawness of Steelcap. These band do not have the traditional W.P sound, which is good, because they may attract followers who would not otherwise be receptive to the White racist message due to musical tastes.. I also enjoy the American bands 'Day of the Sword', Aggravated Assault, and Bound For Glory.

What is the city like
where you live ?

My hometown has the largest population of whites for its area. However, in the absence of large numbers of immigrants, most of the whites are not racially aware. It seems to be in the towns with many blacks and latinos that whites are racist and vocal about their views.

On your demo it states
Boycott 'MSR' productions
can you tell us what this
is all about ?

MSR Productions is an American Mail Order distributor of white power merchandise. Vaginal Jesus had sold them some records for just \$2.20 which they sold for \$9. The owner got aggravated when we told him the pricing scheme was Zionist. He eventually lowered his price at our insistence. Once the singles sold out, he tried badgering us to release them on CD and even offered us the money to do so. Given his past policy on raking in profits, we turned him down. Since then he has embarked on a smear campaign against Vaginal Jesus. He recently released a bootleg CD of Skrewdriver called 'This ones for the skinheads - Skrewdriver Live'. In the liner notes he writes about 'bands that assert to being racist, yet spew out Turko Mongoloid metal that duplicates ethnic groups such as Pantera, Metallica, Vaginal Jesus and other genetic debris'. In other words he is using Skrewdriver to propagate his financial grudge. His only problem with us is that we refused to give into his little fiscal conspiracy: when we were making him money, he loved us. He is to be boycotted by anyone who considers themselves to be white racials, not only for our sake but also because he's involved himself in bootlegging. For a greater detailed free copy of this story write to us.

What are your future plans ?

We plan to eventually release a full length CD on the Tri State Terror label but this most likely won't happen until sometime in 1998. We have several songs already recorded for this. There are also tentative plans to release a Vaginal Jesus retrospective CD this year, possibly on the Sunwheel Label.

CS Gas and the Use of Force

In October 1994, the British TV news bulletins ran items on a new repressive weapon that the police were testing. The new weapon was called Pepper Spray (or Capsicum Spray). The news items showed a volunteer being sprayed, debilitated and then describing his pain and discomfort.

On October 8th 1994, there was a march and demonstration against the then Criminal Justice Bill (new enacted), which finished at Hyde Park. To start with the demo was peaceful, good humoured, boring. There was a bit of heckling of some of the speakers (e.g. the leader of the probation officers union) and a few minor scuffles resulting from this, but nothing notable. Towards late afternoon, sound-system, with dancers in tow, attempted to enter the park, but was re-edited by the police. People pushed through the police lines and danced on top of police vans. The police reacted angrily and the situation escalated, after a few minutes there was an attempt by several people to turn over one of the vans. There were no police exactly at that point, just the crowd of dancers/demonstrators.

Chemical Attack.

The van was starting to move when there was a chemical attack against the crowd. The writers of this leaflet were there and were affected by it. Everyone immediately ran away from the van and towards the park. We are not sure, but we believe that the agent used was the then-under-testing pepper spray, used by the police. Some of the media said it was CS gas, used by the police. The police said it was CS gas used by the demonstrators. We don't know; but the gas certainly served the immediate interests of the filth. (On the other hand, it also pissed people off and may have helped the confrontational mood which resulted in the best riot in the UK since Trafalgar Square 1990.)

New Toys

There has been some media interest over the experimental pepper spray. After it was introduced into California, it resulted in 14 deaths in this first year of use. The upshot of this mild disquiet is that the police are not going to use pepper spray. The Met are introducing CS gas instead. Police will carry canisters as part of their normal kit, and

The Useful Bit

CS gas may or may not be less dangerous than pepper spray. This is what we know about it that might be useful.

- * CS gas can be fatal to asthmatics. If you suffer from asthma, make sure you carry your inhalers with you on demo's. Even if you don't end up needing them yourself, you might be able to help someone else who has an attack.
- * The standard advice to anyone who is gassed is (unfortunately) run away. You need to get to fresh air as soon as possible. Once in the clear, if need be, stand facing the wind with eyes open to clear them of gas. Then return to the conflict, maybe at a different point.
- * Wash your face in plenty of cold water if you are in discomfort.
- * Once home, take a cold bath. Warm or hot water opens the skin pores, allowing remaining CS gas residue to enter and will make irritation worse; cold water closes the pores.
- * Consider taking counter measures. There are some cycle masks that have activated charcoal filters. These should help minimise damage to the airways. Or you could go the whole hog and take a gas mask. But these are heavy, sweaty and conspicuous. Discuss this option with your mate, see whether they think it's worthwhile thing to

Force

Our enemies keep their military and police armed to the teeth. We can't hope to beat them on their own terrain. That is we can't hope to ultimately defeat them on open battle. Our battle. Our only possible strategy is subversion so generalised, but coherent, that it is everywhere. We can use this strategy to inform our low level tactics as well. If the filth use chemical agents against us, certainly we certainly should just fight right back if possible. But we will probably be forced to retreat.

If the police temporarily beat us at the exact point of conflict we should move the point of conflict to places more friendly to us. The weird thing that happens in riots is that the conflict tends to settle down to a battle between the rioters and the pigs in riot gear. Other possible targets are the old favourites of commercial property, posh cars and of course journees. Journalists are coming under attack more and more often, several were attacked at the Hyde Park riot. This sort of thing will increase.

GIG REVIEWS

Derbyshire Sings The Ballads - February 97

Well East Midlands B + H had organised a social evening which to newcomers our scene is basically a get together, a chat, a drink and basically get to know your comrades. But this night proved to turn into something special.

We all gathered on Heanor Derbyshire in a smart well maintained pub and were told Stigger well known guitarist of Warlord and Ex-Skrewdriver was going to make an appearance playing an acoustic ballads set compromising of Skrewdriver, Warlord, Pride and German British Friendship ballads.

About 100 attended and after several drinks Stigger got up on a small stage and promptly dedicated the evening to fallen comrade Chris Castle murdered by now 'Outsiders' of our movement. This also entailed 2 minutes in his honour which was obeyed by all there.

Then down to the music. If you haven't seen a ballads concert, firstly it's not raucous, it relaxed everyone sat down etc., secondly Stigger always encourages crowd participation which basically means, we all sing along.

The set he played lasted about 1 1/2 hours and included 'Green Fields of France', 'Road to Valhalla', 'Suddenly', 'Mist on the downs', 'Tomorrow belongs to me' from Skrewdriver, 'Beautiful England', 'Journey Home' and 'Motherland, Fatherland' from Warlord, 'Get yourself tattooed' and 'Pride' from the Ken + Stigger Pride CD and 'Tell England' from the G.B.F CD.

Each and everyone of us in the room sang along to every word of each song - right arms raised at times.

What a night, these nights promote camaraderie amongst us and prove an important event in the blood + Honour gig calendar.

10/10 to Stigger.

MAYHEM IN MARCH

BLOOD & HONOURS
NEW BREED 'AVALON'
'LEGION OF ST. GEORGE'
'CONQUEST' AND
'CHINGFORD ATTACK'
LIVE IN DERBYSHIRE.

Right:
Some of the lads
on the dance floor
which was packed
all night.

Yet again the East Midlands Division of Blood & Honour staged a gig and was billed as 'the Mayhem in March gig' featuring all the new and exciting new blood to our scene, all the known name bands were busy elsewhere on this evening so there was an air of optimism of the quality of the bands which made it a interesting night.

About 180 lads and lasses had gathered at the small but compact venue and the beer was flowing, a good stall by Fenrir services was doing good trade but it was time for music.

First up were Legion of St. George who had brought along a decent following of their own and they headed straight into Vengeances 'Pride & Pain' and catchy Oi song 'There goes the neighbourhood', the sound quality was great with the excellent sound engineer on hand to make it great. Unfortunately 'Legions' regular drummer had been held up so 'Johnny Reb' the new drummer of Chingford Attack stepped in and did a fine job, but because of this 'Legions' set had to be shortened, the highlight of 'Legions' set was during the song about queer killer 'Colin Ireland' called 'Gods right hand' there was a power failure and a complete blackout, but only the lights, the electric for the band was OK, it was like a scene from a rock concert with everyone holding up lighters in the air, great fun.

Lights back on - Conquests set, the last time I had seen Conquest I was quite drunk so tonight I was looking forward to them. A well rehearsed, well styled also complete with 'Conquest Lightning flash' armbands. Truly in my opinion a band set for white rock stardom (if there is quite a thing?), very powerful band, tracks included 'Battle Song' Race War 'Smack song' Zogbuster' and other thunder rock classics. Get along to see them.

Avalon were up next, a new set up for the band with Graham taking over from Bod on Vocals but also playing the guitar, their set reached out to all of us and proved Avalon a force to be reckoned with on the White Rock circuit, much improved in sound. best track of the set 'Whose education'...10/10 to Avalon.

Last up were Chingford Attack - East Londons ranting heroes, again they had all come in force, it seems new faces are coming to gigs all the time for down that there London place. A new side to Chingford also, Big Mick the bands singer stepped down half way through the set and let a new recruit to the band sing the rest of the set. But before Mick stepped down he blurted out the bands now popular set of 'White Power Skinheads' 'Gerry - F*ck YOU' 'Chingford Attack' and 'East End'. These had the small dance floor packed. Mick gave the microphone over to Brett who went into a set of cover versions to keep the crowd on their feet and included People Haters 'Jew Boy', No Remorses 'Barbecue in Rostock' and other popular Oi classics. After roughly 1½ hours and now beyond 1am in the morning (cheers for the late bar landlord) it was time to end.

All bands played 100% and in all honesty I couldn't say who were the best on the night, if a gig should've ever been recorded live this should've been it, the B&H PA system really is good quality.

All bands dedicated songs and a minutes silence was held in memory of Violent Storm whose anniversary of their death it was, never forgotten, always in our minds.

St Georges Day

The wheels of B & H roll on and this time for the annual celebration of St. George. Held in the Midlands in a good sized Social Club supplying cheap priced ale, the night was set to be good.

Come 7.30pm some 300 comrades had assembled with representatives from most units present including Dutch, German and French comrades.

First up were London lads 'Legion of St. George' who apart from the bands singer 'Si' looking like a 1969 Skinhead reject, they flew into a now well known set of well rehearsed energetic Nationalist Oi music, the songs that I thought were the best were 'Give us back our terraces', 'Liberty Taker' about the royal families leeches like Fergie and the singalong anthem 'White Preservation Society'. Good set and a band to set the mood for the night.

Avalon next up, since Graham has taken control of the band by playing Guitar and singing they have improved alot, tracks played will also be on the bands forthcoming CD they included 'Our Honour is true', 'Whose Education', 'England is my Rose' and other songs now becoming popular.

By the time Avalon had finished the place was buzzing with a good crew of lads dancing away and a sea of right arms raised.

New Blood & Honour band 'Wolfsblair' made there gig debut, a band hailing from East London played a short but tight set and were well received, songs covered topics about our racial survival and the European battle against zionism. Well done Wolfsblair on this great debut, best song of the set had to be the acoustic version of Skrewdriver classic 'Tomorrow belongs to me', watch out for these lads.

Cambridgeshires 'Conquest' appearing next, they went thundering into a really powerful well rehearsed set of NS anthems, which had the lads dancing madly at the front with a hellava lot of 'Sieg Heiling' going on. This band really rock and surprisingly haven't been snapped by a record label yet? Andy the drummer however does appear to be Tom Thumbs brother but his drumming abilities are fantastic, he sure plays his part in this B&H loyal outfit, best song from this ½ hour long set was 'Battle Song'.

Chingford Attack up next, these EastEnders Beer monsters are really popular now and had the crowd going wild. Fast, Furious NS Oi at its best. The bands travelling army of 80 or more started chanting 'East London La la la, East London La la la' and the band didn't let the fans down, they played alot of new songs plus old favourites including 'Gerry - F*ck You', 'Dirty Bastard' and 'East End' etc etc, watch out for the CD from them around Christmas time hopefully.

It was now midnight with everyone tanked up with ale and the atmosphere was great, Stigger and his Warlord band were next, Stigger had, had his fill of beer but it made him better, they played crowd favourites from Skrewdriver like 'White Power' 'Old Albion' 'Hail Victory' 'Night Trains' and 'House of treason' and Warlord faves like 'Beautiful England' 'Brave Ulster' and 'The Journey Home', well done Andy from Conquest for helping out on the drums at such short notice. The night ended at 1am with a great time being had by all present.

Positive Blood & Honour at its best, cheers to Strength and Will B&H Unit for the venue and a big footnote to this article has beAll bands that played donated the door takings towards paying off debts owed on a P.A System, all the bands dedicated and commitment towards the Blood & Honour is fantastic and they should all be saluted for there actions of - THE MOVEMENT FIRST, well done lads.
